SUBJECT: Permit Application No. **NAN-2021-00276-UDA**
by Erie Canalway Heritage Fund, Inc.
City of Cohoes, Albany County, New York

Mr. Andrew Kitzmann
Erie Canalway Heritage Fund, Inc.
P.O. Box 219
Waterford, New York 12188

Dear Mr. Kitzmann:

This office has reviewed your Joint Application Form dated March 12, 2021, and drawings received on February 16, 2022, entitled "Erie Canalway Heritage Fund, Inc., Matton Shipyard: Shoreline Stabilization Design, Preservation and Adaptive Reuse Initiative, City of Cohoes, Albany County, New York", Sheets 1-8, dated Figure 1, dated July 2021, and prepared by M&J Engineering, P.C. This information describes a proposal that would consist of the following:

The discharge of fill material below the ordinary high water mark of the Mohawk River to facilitate the repair of an existing bulkhead and stabilization of approximately 250 linear feet of eroded riverbank.

Based upon the information provided, it appears that your proposed work may be authorized under Department of the Army nationwide general permit numbers: 3 and 13. The nationwide permits are prescribed as a Reissuance of Nationwide Permits in the Federal Register dated January 13, 2021 (86 FR 2744).

The work may be performed without further authorization from this office provided the activity complies with the terms and conditions of the Nationwide Permits (NWP) and the permit conditions listed in Section B, Nos. 3 and 13, Section C, any applicable New York District regional conditions, and any applicable regional conditions added by the State of New York. Please note that NWP General Condition No. 12 requires the installation and maintenance of proper soil erosion and sediment controls during construction and NWP General Condition No. 21 sets forth the process that must be followed should any previously unknown historic, cultural, or archeological remains and artifacts be discovered while accomplishing the activity authorized by this permit.

The 2021 Nationwide Permits, including their final regional conditions, water quality certifications, and coastal zone concurrence statements are available at:

<http://www.nan.usace.army.mil/Missions/Regulatory/Nationwide-Permits/>

Please review and familiarize yourself with all relevant terms and conditions of the nationwide permit prior to proceeding with your project, and subsequently ensure you adhere to all conditions through the duration of the project. If you do not have internet access and require a specific paper copy, please contact the undersigned to request one be mailed to you. Please be sure to have your permit application number readily available when you call.

This verification is valid until March 14, 2026, unless the nationwide permit is modified, reissued, or revoked. This verification will remain valid until March 14, 2026, if the activity complies with the terms of any subsequent modifications of the nationwide permit authorization. If the nationwide permits are suspended, revoked, or modified in such a way that the activity would no longer comply with the terms and conditions of a nationwide permit, and the proposed activity has commenced, or is under contract to commence, the permittee shall have 12 months from the date of such action to complete the activity.

Please note that this determination does not eliminate the need to obtain any other Federal, State, or local authorizations required by law for the above described work, including any required permit from the NYSDEC.

In order for us to better serve you, please complete our Customer Service Survey located at:

<http://www.nan.usace.army.mil/Missions/Regulatory/CustomerSurvey.aspx>

Any inquiries can be directed to the undersigned at (518) 266-6356.

Sincerely,

Andrew Dangler
Project Manager
